

## The Medium Maco by Copper Rec Granulator Separator 380V tree-phase

The Medium Maco is designed and manufactured in France to recycle flexible or rigid electric cables.

It granulates and separates copper or aluminium from the electric sheath.

The grinder granulator works with 9 rotary knives and 2 fixed blades.

The Medium Maco is delivered with 3 grids for granulation and 1 grid to pre-granulation.

### Technical specifications

Model	Power	Cable Input capacity *	Voltage **	Amps
Medium Maco	7,5KW	100 – 150 kg / hour	380 V Tree-phase 50Hz	9A

\* The figure is non-binding and can vary depending on the cable's type and the choice of the grid.

\*\* Depending on the country

Dimensions L*W*H in cm	90 x 101 x 176 cm
Weight in Kg	650 kg
Noise level in DB	92 Dba by loading
Max Ø of flexible cables to be granulated in mm	20 mm
Max Ø of rigid cables to be granulated in mm	15 mm
Ø of the grid's holes in mm	2mm, 3mm, 4mm and 8mm for pre granulating
